

Green Schools is a 501 (c) 3 Charitable Organization organized for environmental education purposes.

Our mission is to create "greener" and healthier learning environments through education & awareness.

Green Schools offers a number of educational programs and resources to help your schools and communities Go Green & Stay Green.

We make *The Green Difference!*

*A HEALTHY CHILD &  
A HEALTHY PLANET*

Our children and our planet are currently suffering from toxic overload and environmental illness. There is an analogy in the medical community that we think makes a lot sense. Each one of us has a "bucket" representing our Immune System. It is when that bucket "overflows" that we begin to see symptoms. Today's symptoms are showing themselves in the forms of Allergies, Asthma, Chemical Sensitivities, ADHD, Cancer, Diabetes, Autism, and yes, Global Warming! There is much we can do to combat these symptoms of illness and move towards a model of wellness for our planet & its occupants.

## Why I Created Green Schools

*In 2007 I nearly died from repeated anaphylactic attacks. After the birth of my second daughter, I literally became allergic to everything under the sun [including myself] and developed numerous diseases. At this time, I also noticed that my 2 young girls appeared to be suffering from similar health-related issues. Our family read non-stop, we visited doctors in MD & MA, and we began to get answers that made all the difference!*

*My family suffered from environmental illnesses and did not have the tools to make the necessary changes to achieve a healthier life. Since 2007 I am happy to say that my family has literally reversed diseases and no longer has to live in fear about what could come next.*

*I was a teacher for more than decade and knew that I had to do something with my background in Education and my passion for environmental wellness. Green Schools was created, and I am happy to say that we are about to serve 100 schools in MA and Beyond and we hope to bring **The Green Difference** to your school and community as well!*

*Sincerely,  
Robin Organ-Executive Director/Founder*

*Green Schools received a Certificate of Honor under the Secretary's Award Program for Excellence in 2009.*

## Award-Winning Programs

### Become a Member

Become a Member  
*[School/Business/Individual]*

### Book an Educational Program

Green Schools offers a number of Assemblies, Workshops, Staff Training, and Community Sessions.

Bring our *Green Difference Band*, *Green Girl*, or even *Bag Monster* to your school or community event!

*Green Girl photographed with students during an environmental assembly.*

*The Green Difference Band photographed with students during an environmental with students during an assembly.*

## Programs continued...

### Student Ambassador

Students in Middle & High School students have the opportunity to work directly with the Green Schools organization on innovative projects for their schools and communities.

### Green Schools Summit

Join Green Schools + students and teachers across New England for an unforgettable environmental summit that is bound to inspire! Green Schools Summit is geared for Middle + High School students, educators, and those interested in Sustainable Schools.

### The Green Difference Awards

There is much quality work being done in our schools, and we applaud you for your efforts! The Green Difference Awards recognize Outstanding Contributions to Environmental Education made by Students, Teachers, Leaders, Activists, and Communities.

**Get ready for *Green Schools Summit*  
An Environmental Event for  
Middle/High School Students.**

**\*NOMINATE GREEN LEADERS  
FOR A *GREEN DIFFERENCE AWARD!***

*Green Schools is partnered with EPA, The MA DEP, MA DPH, AmSan, BYEN, CHE, Clif Kid, Foundation for a Green Future, Casey EMI, The Marino Center for Progressive Health, Global Carbon Trax, Partners in Prevention, TPED [The Project to End Disease], and many others...*
